

SAFE Solutions is a free, user-driven, wiki-based platform that serves as a one-stop shop for states and communities to find a collection of research, educational materials, and promising practices that can be tailored to your unique set of needs and support your strategic response efforts.

What Can I Find On SAFE Solutions?

- Nearly 100 prevention, early intervention, harm reduction, treatment, and recovery strategies for responding to the addiction epidemic and growing!
- Helpful resources like research, data, reports, educational materials, toolkits, factsheets, and technologies.
- Federal, state, and local policies that have helped open doors and create progress.
- Promising practices from rural, suburban, and urban communities across the nation.

With SAFE Solutions, States and Communities Are Able To:

- Build capacity by easily accessing information using a single entrypoint. This allows local and state leaders to spend less time searching the internet for resources and more time where it is most valuable - helping people in their communities.
- Identify new or strengthen existing response efforts.
- Explore policy changes that can amplify your efforts.
- Use the information to more easily write grant applications and expand your funding base.
- Know that the information you're accessing is credible because it links to citations and is vetted by reputable subject matter experts in the field.
- Build more champions to help support your cause because SAFE Solutions is balanced enough for both professionals in the field and community partners (like business owners and elected officials) to use.
- Share knowledge of what's worked well in your community with your peers across the nation.
- Link to SAFE Project for additional support, if needed.
- Collectively come together with others to contribute to the platform and save more lives!

With accidental overdoses reaching nearly **300 per day**, this problem is larger than any one community. While the most effective solutions are locally-driven, it is our shared responsibility to support the well-being of our communities.
